MELBOURNE
SHADE SYSTEMS

glass roof awnings

made to measure

Sophisticated, electric motor driven awnings, running on side tracks make our Conservatory awning an ideal solution over glass roofed frames.

Cassette and guide rails of every Conservatory awnings are made from extremely sturdy aluminium profiles. All components are extensively protected against corrosion and absolutely maintenance-free!

Melbourne Shade Systems specialise in creating solutions for glass roofed structures. We have complete systems from economical manually operated to fully automated systems to suit both pitched and flat glass roofs for covering up to 6 x 6 metres or 30 square metres in a single unit.

Pleated patio Awning is one of the systems available in both manual or motorised operation. This unique retractable awning system can be installed under an existing pergola or glass covered roof without any expensive alterations.

horizontal fixed guide awning over conservatory glass roof

Economical choice for covering hard-to-reach glass and laser light roofed pergolas or pergolas overgrown with climbing plants as this design is installed above the existing roof.

This system is spring loaded and can be operated by hand via a cord or can be fitted with an electric motor for ease of operation.

Internal or external operation is optional. The shade material is supported by guide rods and brackets which are available in stainless steel or galvanised steel. Full range of fabrics and colours are available.

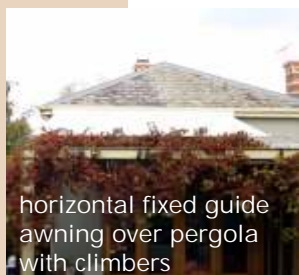

Ideal system for pergolas up to 3 x 3 metres in a single unit, larger pergolas may need multiple units.
