

Introducing,

The new Aluxor **Stratos III**

Stratos III is a new style of sunshade designed for those who place the highest demands on technology and quality and insist on these being delivered in an elegant, unobtrusive design.

At the core of the **Stratos III** is the world leading Aluxor mechanism. Strong, reliable German engineering both tested and proven with an extruded aluminium outer shell providing protection against dirt and corrosion.

Advanced corrosion protection, highest quality materials and precision manufacturing ensure that **Stratos III** not only gives years of trouble free service but also that it will continue to look as good as on the day that it was installed.

Features:

Outer shell is powder coated to chosen colour at no extra charge.

Arms and frame are supplied in standard White or Silver.

All pins, bolts and nuts throughout are made of stainless steel.

Manual or motorized operation.

Top cover seals back against wall.

Mounting brackets can be positioned to suit rafters etc.

Size range, 2.0 x 1.5 to 18.0 x 4.0 m.
