

SQUARE SCREEN AWNINGS

SQUARE SCREEN 95

This vertical system is designed for windows and patios. It has a maximum width of 3 metres and height of 3 metres and can be motorised or manually operated internally or externally.

The Square Screen awning comprises of a 95 x 95mm header box with a heavy 48mm keyway tube and side rails allowing the fabric to slide up and down easily. The components are supplied in a mill finish allowing you to powdercoat to any colour enabling you to match your window frames or surrounds.

SQUARE SCREEN 95

VERTICAL AWNING

MAX DROP: 2500mm - MAX WIDTH 3000mm

This system can be motorised or used with internal or external crank. Very neat and effective way of protecting windows from sunlight. This system can be powdercoated to match your aluminium window frames. Easy installation.
