

Dutch Hood Canopy

*Acrylic Canvas
Scalloped Valance*

*PVC fabric Scalloped
Valance*

Straight Valance

Dutch hoods are constructed with extruded aluminium frames and can be covered in a range of fabrics, from canvas, acrylic canvas, shade mesh and PVC coated textiles, for maximum sun and weather protection.

Over 100 colours available to suit any domestic or commercial building environment or to promote a corporate image.

The awnings are designed so if the fabric is damaged or a new colour desired it can be replaced with relative ease.

The components used in Dutch Hoods are designed to be long lasting and low maintenance. These items are made from rust-free extruded anodised aluminium and the PVC components contain ultraviolet stabilised polymers.
