

DOCRIL® FABRICS

Reduce solar heat gain by up to 90% | Provide outdoor comfort and indoor climate control |
Stylish, durable and easy to clean | 100% solution dyed acrylic fabric ensures long lasting colour |
Create additional covered outdoor living spaces | Colours & Designs are water-repellent |
Nautica fabrics are waterproof

DOCRIL® FEATURES

OIL-REPELLENT PROPERTIES

Docril® fabrics are treated to repel stains from oil-based products, ensuring that splashes and spills can be easily cleaned with a dry cloth and dry stains can be brushed off.

WATER-REPELLENT PROPERTIES

Our fabrics are designed to achieve the highest values possible in spray tests, which are performed to determine the resistance of fabrics to surface moisture.

WATER PENETRATION PROPERTIES

Docril® fabrics have a resistance to a water column of up to 35cm, which is the volume of accumulated water that the fabric can support vertically before it begins to filter and drip through the fabric.

SOLUTION-DYED 100% ACRYLIC COMPOSITION

Docril® fabrics are manufactured with solution-dyed acrylic fibres. The solution-dyeing process incorporates the pigments into the molecules of the fibre, creating stronger bonds than would be achieved by dyeing the thread or the fabric. This means that the fabrics have very low vulnerability to the effects of UV rays, so we can guarantee the brightness and colour longevity.

DUPONT TEFLON®

Docril® fabrics are coated with Dupont Teflon® and have exceptional resistance to water, high temperatures, chemical reaction, corrosion and stress cracking.

DURABLE AND EASY TO MAINTAIN

Docril® fabrics are as durable as they are stylish and are designed to handle high traffic applications with ease. In outdoor situations these fabrics should be hosed regularly to remove dust, bird droppings and other solid particles and should not be rolled up or stowed away while wet. Comprehensive care details are available on the Ricky Richards website or by request from Ricky Richards (Sales) P/L.

10 YEAR WARRANTY

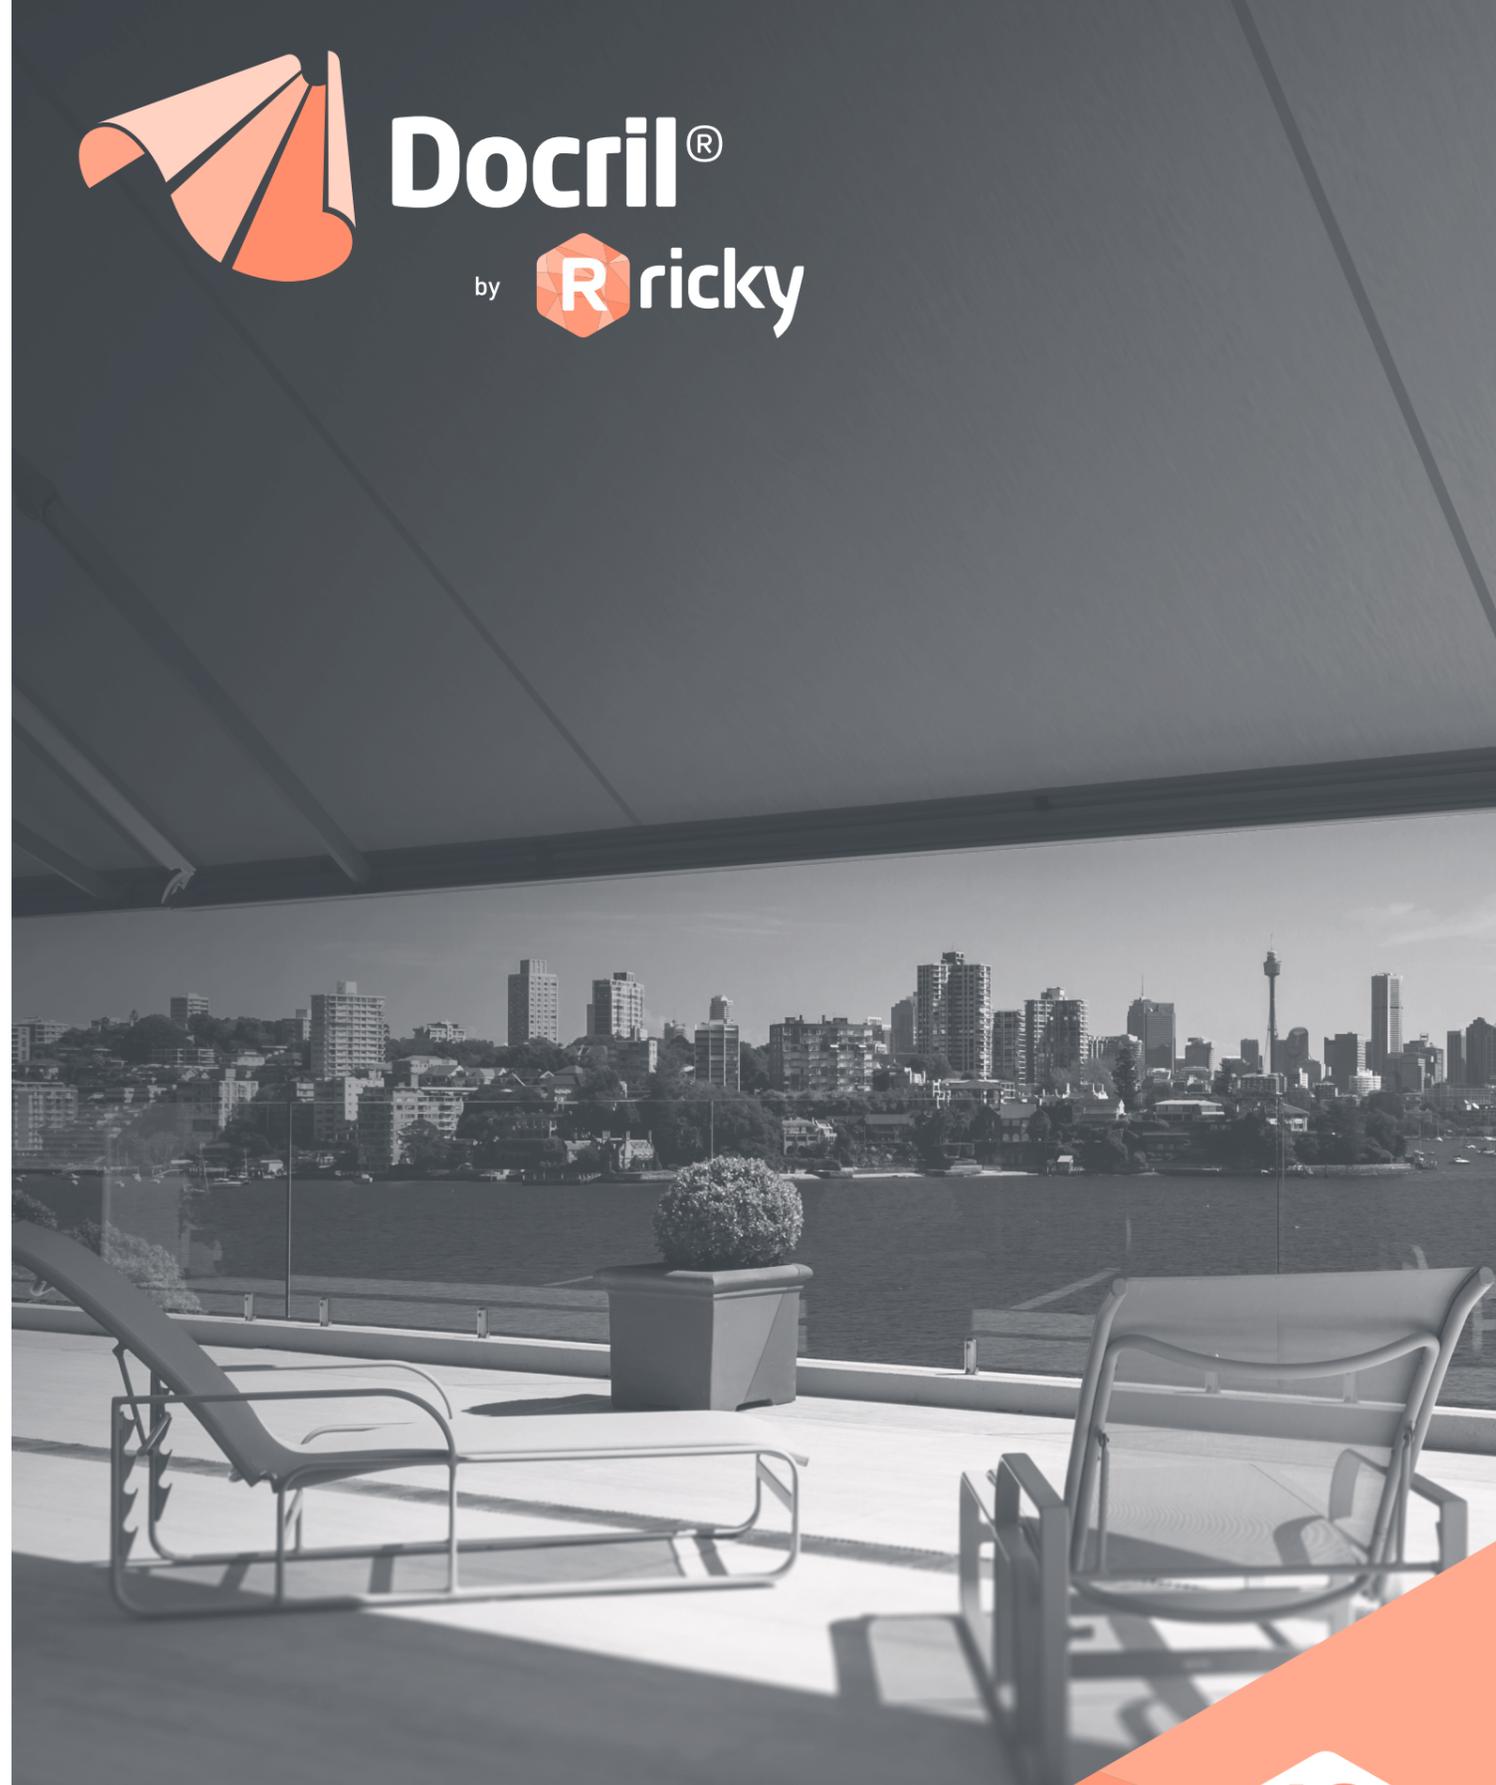

Docril® fabrics are supported by a full 10 year warranty. This covers changes in physical properties and is valid for 10 years from the date of purchase.

MELANOMA INSTITUTE AUSTRALIA

When you choose a Docril® fabric, a percentage of sales are donated to the Melanoma Institute Australia to fund vital research and support their goal of zero deaths from melanoma.
