

EXTERNAL SHADES

**ROLLEASE
ACMEDA**

z-LOCK™

Patented z-LOCK™ technology provides a unique fabric guide. Concealed within the channels, z-LOCK™ fastens the fabric securely, creating a strong smooth and streamlined finish. Tightly integrated, our zip-guided system ensures there are no gaps between the fabric and the channels.

ANTI-GLARE

Zipscreen™ is the ultimate external screening solution for any outdoor area or window. Specially designed for alfresco, veranda, and balcony applications, Zipscreen offers privacy and protection from the sun, wind, rain, and insects all year round. Custom built, Zipscreen systems can be made in widths of up to 5.8 metres and of drops up to 4 metres, or an impressive 7 metres with Zipscreen Extreme, offering an external solution to fit almost any area.

THE ALL NEW ULTRA-LOCK

Our patented, new Ultra-Lock boasts adaptive locking technology, which allows the shade position to be easily reset if simultaneous locking is interrupted by unexpected weather conditions or obstacles. A stronger heavy duty latching pin combined with a hidden integrated design ensures a reliable solution, which can be pre-assembled off-site, for a quick & easy installation.

PVC SCREEN COMPATIBLE

Introducing a completely transparent external solution. Zipscreen is compatible with clear, dimensionally stable PVC configurations. PVC creates a completely rain and weather-proof barrier, while also remaining perfectly clear.

VEUE DROP AWNINGS

STRAIGHT DROP

The Veue Straight Drop system is an entry-level outdoor shading solution that is suitable for a variety of external residential or commercial applications - sliding windows, doorways, undercover and outdoor areas. Our Straight Drop system is simple in its design and installation, creating a minimal aesthetic and cost-effective solution.

WIRE GUIDE

A discreet wire guided solution, great for floor to ceiling applications. Featuring a universal bracket to fix the base of the wire guide to the floor, face or recess. The Wire Guide system utilises compression springs to tension the wire, ensuring a smooth and steady guide for the fabric. Wire tension is quick and easy to adjust.

CHANNEL GUIDE

Featuring a slimline tension-free side guide, this system utilises a two-piece channel for easy installation with clip fixings. Ideal for sheltering residential or commercial areas, this system is suitable for enclosing any outdoor space. The slim 75mm side channels and integrated fabric brushes ensure discreet and quiet operation.

PIVOT ARM

The Veue Pivot Arm awning system is ideal for windows on first or second story levels. Veue Pivot Arm features a robust spring-loaded arm and perfectly maintains fabric tension in all positions.

FOLDING ARM AWNINGS

Our range of folding arm awnings comprises of classic style open and contemporary enclosed cassette solutions. Our award winning European designed awnings feature the innovative DAT folding arm torsion mechanism, combining distinctive design and high-quality components to deliver outstanding mechanical performance. Our awnings are backed by our 5-year warranty.

OPEN AWNINGS

Piuma

Piuma is our cost-effective and versatile designer awning. Featuring tensioned and light, square-shaped cable arms, Piuma is specifically engineered for small to medium sized applications.

Klip & Stein

Klip and Stein are our traditional awnings systems, offering a patented design and high-quality, die cast aluminium brackets and arm supports. Klip's vertical design is best suited to open style face fix applications, while Stein is horizontally designed for under eave installations. Both premium, designer awnings offer colour-matched hardware, to ensure they accentuate any architectural application.

Klip Pod

Klip, one of our most elegantly designed, durable and slim-built awnings, is now available in a semi-cassette configuration. The Klip Pod is designed to perfectly accent the overall aesthetics of the Klip system while also providing a functional benefit of protecting the awning's fabric.

PIUMA

Span: Up to 6 metres
Projection: 3 metres
Tilt: 5° to 90°

STEIN

Span: Up to 14 metres
Projection: 4 metres
Tilt: 5° to 85°

KLIP

Span: Up to 14 metres
Projection: 4 metres
Tilt: 5° to 65°

KLIP POD

Span: Up to 5.4 metres
Projection: 3.5 metres
Tilt: 5° to 65°

CASSETTE AWNINGS

Kumo

Kumo is a fully enclosed system that contains very few components, making it easy to assemble and install. The smooth, round cassette protects the fabric while not in use and can be either top or face fixed. This seamless awning has minimal visible screws and utilises high-quality die cast aluminium brackets and supports. Kumo is available in manual or motorised control system and can be colour matched to suit the look of any application.

Shan

A standout shading product, Shan's patented design won the internationally recognised Red Dot Design Award in 2010. Shan uses a motorised control system and high-quality specifications to enhance the look of any architectural facade. The contemporary, fully enclosed square cassette ensures the blind is protected when not in use, with an added gasket that protects against water damage. Fixed with quality die cast aluminium brackets and supports, ensuring durability and easy maintenance.

Feng

Designed by world renowned, Italian industrial designer Mario Mazzer, Feng is our new flagship awning. Featuring a beautifully designed, rounded and completely enclosed aluminium cassette as well as integrated LED lighting, Feng is our most versatile awning yet. Easily use this awning throughout the day and into the night at the flick of a switch.

KUMO

Span: Up to 6 metres
Projection: 3 metres
Tilt: 5° to 85°

SHAN

Span: Up to 10 metres
Projection: 4 metres
Tilt: 0° to 40°

FENG

Span: Up to 14 metres in width
Projection: 3.7 metres
Tilt: 3° to 35° w/ LED or 45°

ILIOS DROP AWNINGS

ILIOS WIRE GUIDE

Span: Up to 4 metres
Drop: 3 metres

ILIOS PIVOT ARM

Span: Up to 4 metres
Projection: Up to 1.5 metres

Our Ilios Awnings share a contemporary aesthetic across both the system variants, ensuring versatility and uniformity in all applications.

Ilios Pivot Arm

The Ilios Pivot Arm Awning provides effective protection from the sun and neatly folds away into the beautifully designed aluminium round head box when not in use. This designer awning is perfect for multi-story windows, doors and balconies

Ilios Wire Guide

Featuring the signature Ilios aesthetic, this vertical drop awning with its aluminium head box and lateral stainless-steel cable guides, is suitable for every architectural context, be it modern or classic.

With z-LOCK™: Up to 6m x 6m
Without z-LOCK™: Up to 7m x 5m or
Up to 5m x 7m

FRAME

Frame is a retractable roofing system, built to protect from sun and rain. Designed with a slim cassette, the Frame system attaches to existing conservatories and pergolas to create a sheltered area, that is protected from the elements, all year round. Frame utilises a high-pressure gas spring system for rattle-free movement and constant tension across the length of the system, ensuring the fabric always remains smooth and taut. Frame can also be configured with our signature side guide technology, z-LOCK™, providing superior tension across all four sides of the fabric and preventing any undesired rippling or sagging on larger applications.
