## Liza

/ outdoor shading

The Liza Skylight and Verandah systems provide the perfect solution for shading glass roofs or outdoor areas.

Its sturdy design allows for retractable shade in conditions where a folding arm awning may not be ideal. Whether you have an existing structure that the Liza can mount to, or if you need the Liza Verandah to help you create a structure, this flexible system offers you the very best of high-end European design and quality.

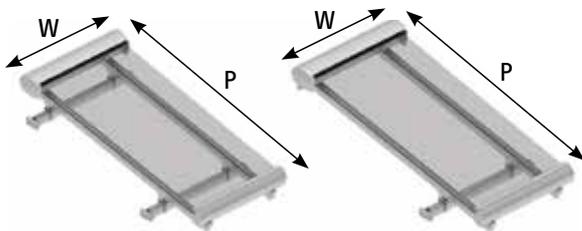

The Liza Skylight and Verandah systems are fully motorised, providing retractable shade up to 30m<sup>2</sup>. Only available with motorised operation. Standard colour is white.

**Maximum size (mm)**  
 6,000(W) x 4,000(P)  
 5,000(W) x 6,000(P)

minimum projection 2500mm

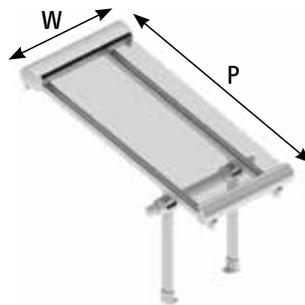

### Basic structure options

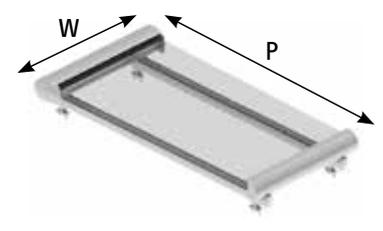

between 2 walls

between 3 walls

Wall-to-wall mounted  
(without legs)

Wall-mounted with front legs  
(verandah)

Skylight

### Cassette skylight system

Unlike other systems that uses a complicated system of pulleys and drive belts, the Spanish designed and built Liza uses industrial gas struts to extend the awning.

This awning is great to automate the shading of skylights or put on top of an existing pergola or verandah structure.

### Verandah system

The Liza provides a verandah system that completely opens and closes, has style and is extremely well built out of high quality aluminium.

The Liza can go from full open sky to shade and sun protection at the push of a button providing creative shade solutions for café's, restaurants and residential outdoor spaces.
